WELCOME

Dear colleagues and friends,
the **Associazione Riabilitatori dell'Insufficienza Respiratoria** (ARIR), is organising its second congress on the shores of **Genova**, Italy, from the **21st to the 23rd of March 2013**.

This congress offers the opportunity to meet colleagues from Europe and around the world, who are interested in enhancing their knowledge and sharing experiences so as to improve respiratory care and further promote the development of applied technology. Professionals will be sharing their clinical and practical experience in the form of workshops, practical symposia and roundtable discussions. Creative and innovative issues in Respiratory Care will be presented in the plenary sessions while the exhibition hall will expose you to the latest in respiratory care technologies and related therapies.

Genova, the most important and fascinating city overlooking the **Ligurian Sea**, is the ideal setting for this conference, to make this event an educational, fun and memorable experience.

Arrivederci a Genova!

BENVENUTI

Cari Amici e Colleghi,

ARIR, l'Associazione Riabilitatori dell'Insufficienza Respiratoria, sta organizzando il secondo congresso internazionale per i fisioterapisti della respirazione, a Genova, dal 21 al 23 marzo 2013.

Questo congresso offre l'opportunità di incontrare colleghi provenienti da tutta l'Europa e dal mondo, che sono interessati ad approfondire le loro conoscenze, a confrontarsi e condividere le loro esperienze, al fine di migliorare l'assistenza respiratoria e promuovere ulteriormente lo sviluppo delle tecnologie applicate.

I partecipanti avranno modo di approfondire le loro esperienze cliniche e pratiche attraverso workshops, seminari pratici e tavole rotonde. Innovazioni nell'ambito della Respiratory Care saranno presentate nelle sessioni plenarie, mentre negli spazi espositivi saranno presentate le più recenti tecnologie di assistenza respiratoria e terapie correlate.

Abbiamo scelto Genova, con il suo centro storico più grande d'Europa, con il suo porto Antico e la sua straordinaria ricchezza culturale e naturalistica, come cornice ideale per accogliere questo congresso, facendone non solo un momento estremamente formativo ma anche un'esperienza piacevole e indimenticabile.

Arrivederci a Genova!

ARIR PROFILE

ARIR was **created in 1989 by a group of Physiotherapists** who wanted to give a voice and contribute to the development of this profession by means of continuing education and discussion between those working in Physiotherapy and Pulmonary Rehabilitation. The multidisciplinary and Evidence-Based-Medicine approach are the preferred paradigms for pursuing the above objectives.

In the last 15 years, ARIR has created links of significant interaction and collaboration with associations relating to and part of the field of Physiotherapy and Pulmonary rehabilitation. ARIR has organized continuing education opportunities with the **Italian Group of Cystic Fibrosis Physiotherapist** (GIFT/FC) and with the **Italia Physiotherapists Association** (AIFI).

ARIR has been a collaborator in the founding of the **European Respiratory Care Association** (ERCA) and since 2002 has been affiliated with the **American Association for Respiratory Care** (AARC) and with the Italian **Hospital Pneumologists Association** (AIPO).

Another important initiative by ARIR is the Master in Physiotherapy and Respiratory Rehabilitation, which is now at the sixth edition and has trained more than 100 Italian and foreign physiotherapists. This initiative contributes concretely to the creation of this discipline in Italy.

PROFILO ARIR

ARIR è stata **fondata nel 1989 da un gruppo di Fisioterapisti** che desideravano dare un concreto contributo allo sviluppo della loro professione attraverso la formazione e il confronto tra coloro che lavorano nella fisioterapia e coloro che lavorano nella riabilitazione polmonare.

L'approccio multidisciplinare e Evidence-Based-Medicine sono stati i paradigmi preferiti per perseguire gli obiettivi di cui sopra.

Negli ultimi 15 anni, ARIR ha creato legami di significativa interazione e collaborazione con associazioni che fanno parte o che interagiscono con l'ambito della fisioterapia e della riabilitazione polmonare. ARIR ha organizzato corsi di formazione ECM con il **Gruppo Italiano della Fibrosi Cistica** (GIFT/FC) e con l'**Associazione Italiana Fisioterapisti** (AIFI).

ARIR ha collaborato nella fondazione dell'**Associazione Europea Respiratoria** (ERCA) e dal 2002 è stato affiliato con l'**American Association for Respiratory Care** (AARC) e con l'**Associazione Pneumologi Ospedalieri Italiani** (AIPO).

Recentemente, ARIR ha concluso un censimento dei terapisti della respirazione che operano in ospedali italiani, con l'intento di utilizzare questo strumento, unitamente all'aiuto di altre organizzazioni di settore, al fine di trovare attraverso questa mappa, le risposte a specifiche esigenze che sono emerse ed emergeranno nell'ambito della riabilitazione polmonare e della fisioterapia.
